

DWK Life Sciences would not recommend that DURAN® Original bottles are used in applications involving pressure or a vacuum.

DWK recommends that pressure resistant glass bottles = DURAN® pressure plus+ are used in applications involving pressure or a vacuum.

293102807 has a EPDM O-ring that seals to the top of the bottle – marked with red arrows in the cut-through diagram.

The sealing of product number 293102807 has been tested under positive pressure, and typically remained sealed up to ca. 5 bar.

(This was a hydraulic test performed with water)
