## sempercare ${ }^{\circledR}$ edition

LATEX ALL-ROUNDER: A powder-free, latex examination and personal protective glove for versatile use. It has fingertip texturing and thus excellent sense of touch.

## Description

sempercare ${ }^{\circledR}$ edition is designed to be the reliable latex glove for everyone working in the medical field. With its fingertip texturing and its excellent sense of touch, the glove is ideal for handling everyday medical tasks from patient care to making beds, as well as handling instruments and samples in the medical lab. sempercare ${ }^{\circledR}$ edition is known for its outstanding wearer comfort combined with excellent sense of touch, at the same time not compromising its protection against blood borne pathogens. This makes it the ideal companion for your everyday work.

## Benefits

- Protects users and patients from the transmission of infections.
- Glove material is resistant to blood and other body fluids, and protects against bacteria, fungi and viruses
including SARS-CoV-2, Hepatitis B \& C and HIV.
- Advanced tactility due to the particularly resilient and stretchy properties of the latex material.
