

# Cryo-Apron

## *Cryogenic Protection in Ultra-Cold Environments*

Cryogenic aprons made by Tempshield provide a high-level of thermal protection to the torso and upper legs in harsh cryogenic atmospheres. Made from state-of-the-art materials, our Cryo-Apron is designed to keep you safe and comfortable. Our multi-layered construction allows for a maximum level of thermal protection, and a waterproof nylon outer shell protects you from cryogenic splashes. For added safety and function, our cryogenic aprons have quick-release buckles at the neck and waist.
